Address: Hungary (Home)

● ABOUT ME

Computer Science student specializing in Artificial Intelligence, with experience leading teams, contributing to open-source projects, and developing real-world software solutions. Curious, proactive and driven by problem-solving.

● EDUCATION AND TRAINING

13/09/2024 – 30/07/2027 Eger, Hungary

COMPUTER SCIENCE BSC Eszterházy Károly Catholic University

- Artificial intelligence fundamentals, including **machine learning and data analysis**
- Programming for AI and software development using **Python, C#, JavaScript, PHP, and SQL**
- Core computer science concepts (**algorithms, data structures, problem-solving**) and basic database/web development

Level in EQF EQF level 6

05/09/2021 – 05/07/2023 Muborak, Uzbekistan

OPERATOR OF MEDIA MACHINES AND COMPUTER NETWORKS Muborak Vocational School

- Computer hardware, troubleshooting, and basic computer networks
- Programming basics and scripting (**Python**)
- Academic achievements: **English Olympiad**

● WORK EXPERIENCE

JUNIOR DOTNET INTERN – ITRANSITION – 07/06/2023 – 22/08/2023

- Selected as **1 of 70 participants** from over **3,000 applicants**
- Developed backend and full-stack components using **.NET, JavaScript, SQL**
- Worked with **Azure Cloud** services and RESTful APIs
- Implemented **SHA-256 encryption** and optimized system processes
- Collaborated in a team environment following software development best practices

FOUNDER AND BACKEND DEVELOPER – WAKEEL – IT CONSULTING AND SOFTWARE DEVELOPMENT – 07/04/2023 – 17/07/2024 – TASHKENT, UZBEKISTAN

- Founded and led a **team of 5 developers** in designing and delivering software solutions
- Led development of **Project Ubee**, a client application using **REST APIs, PostgreSQL, and Azure Cloud**
- Contributed to the design and implementation of **FleetFlow**, an open-source delivery management system

● PROJECTS

19/06/2024 – 15/06/2025

MedLog

- Designed and implemented a **medical record logging system** to improve tracking and management of healthcare data
- Deployed and used in a **real-world environment** serving **10,000+ users** at the city level
- Focused on **secure data handling**, system reliability, and backend logic
- Contributed to improving efficiency and transparency in local healthcare record management

● **VOLUNTEERING**

12/10/2022 – CURRENT Tashkent
Open Source Contributor

- The Standard** – Open-source project focused on Clean Architecture and code management best practices
- Contributed code examples and translated documentation to improve accessibility for developers
- Tigernet** - Open-source framework within **Microsoft .NET**, positioned as an alternative to Node.js/Express
- Contributed to backend development and framework components
 - Participated in improving core functionality and code quality

● **SKILLS**

Soft skills

work as a team | Mentoring and Leadership Skills | manage time | creativity and passion for new skills

Technical skills

Php | Python | C# | MongoDB | Javascript (React.js) | SQL | Postgresql | Linux | Java | MySQL | Machine Learning | Unit Testing | Azure | Docker | WordPress

● **LANGUAGE SKILLS**

Mother tongue(s): **UZBEK**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	B2	B2	B2
RUSSIAN	B1	B1	A2	A2	A2
HUNGARIAN	A2	A2	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **HONOURS AND AWARDS**

29/07/2023
Future Youth Scholarship – Najot Talim and Cambridge

- Recipient of a one-year scholarship for English and IT development studies.

● **CERTIFICATIONS**

Microsoft, 29/04/2024
Microsoft C# Foundation

Mode of learning: Online

● HACKATHONS

13/10/2025 – 28/10/2025

International Computer Science

- Recognized with an Honorary Certificate at an International Computer Science Competition for outstanding participation

Link <https://www.dropbox.com/scl/fi/nzh2ldjmufzwc9s8ucg9/InternationalCSCompetition.pdf?rlkey=xvi0qwyw2sjozbzutdhjzfwu1&st=gg3snd9f&dl=0>

23/11/2024 – 28/01/2025

OTP Bank Hackathons

- Participated in **AI-focused hackathon**, developing an **AI agent** using bank-provided **confidential datasets** in a secure environment
- Participated in **blockchain / Web3 hackathon**, developing a **1:1 Hungarian Forint (HUF) stablecoin wallet** using **.NET**
- **Formed and led teams** for both hackathons from my university
- Achieved **Top 10 placement** in the blockchain hackathon.

27/02/2026 – 28/02/2026

GDE Mind and Machines(MIT)

- Built a **B2B SaaS** platform prototype utilizing **Azure Cognitive** Services to track longitudinal patient health trends and flag high-risk cases.
- Developed a seamless workflow that translates complex medical dictations into patient-friendly summaries, emphasizing **Value-Based Care**
